---

Summary

Results-driven **Frontend Developer** with over **two years** of experience in designing and developing modern, responsive web applications. Proficient in **JavaScript, TypeScript, and React.js**, with a strong foundation in **UI/UX principles, performance optimization, and state management**. Adept at integrating APIs, building scalable frontend architectures, and collaborating with cross-functional teams to deliver high-quality digital experiences. Passionate about continuous learning, leveraging the latest technologies, and enhancing user interactions through **clean, efficient code**. Seeking to contribute my expertise in frontend development to create impactful, user-centric solutions.

Work experience

Internship & IT Specialist | Web Designer & IT Support
PROPRINT SOLUTIONS
2021 – 2023
KUWAIT, KUWAIT

Web Designer (Internship):
Designed and developed a professional website for the company, enhancing its online presence and accessibility.
Utilized HTML, CSS, and JavaScript to create a responsive and visually appealing user interface.
IT Specialist:
Provided technical support and IT system maintenance to ensure smooth business operations.
Diagnosed and resolved technical issues, implementing effective solutions to minimize downtime and improve efficiency.

Software Engineer Intern
NANODEMS YAZILIM TEKNOLOJILERI
2022/06 – 2022/08
Ankara, Türkiye

Gained hands-on experience in software development within a company specializing in surveillance systems and security solutions.
Focused on integrating third-party software and firmware for remote device management via the NDIS product.
Assisted in testing, debugging, and optimizing software solutions for security and surveillance applications.

Software Developer
Self-Employed
2024/05 – 2024/08
Remote

Developed a Patient Information Management System, designing and implementing an intuitive user interface using Python and Tkinter.
Built a structured database system that allows efficient input, storage, and retrieval of patient records.
Integrated file scanning and automated storage functionalities, enabling seamless document digitization and quick access through stored file paths.
Implemented an advanced search functionality, optimizing data querying and significantly improving retrieval speed and accuracy.
Designed the system with a focus on usability and efficiency, enhancing workflow for medical professionals handling patient records.

Education

Master of Computer Engineering
Sakarya University
Sakarya, Türkiye

Computer Engineering Bachelors
Sakarya University
Adapazari, Türkiye

Frontend Development Bootcamp
ReCoded ⬈
Remote

Key skills

Programming Languages
C++ C# HTML CSS Python

Libraries/Frameworks
JavaScript React.Js Next.Js Redux Tailwinds Bootstrap ASP.NET

Tools / Platforms
Git Github

Databases
Sql Sql Express Firebase

Projects

GIVINGLY ⬀
HTML ,CSS, TAILWIND, NEXTJS, FIREBASE, REDUX, CYPRESS
Our Re:Coded graduation project involved creating a dynamic crowdfunding platform with modern technology for user-friendly campaign creation and management across various project categories.
